WASHDOOR POS

Create Order + Create Customer — Screen Documentation

End-to-End Intake Workflow | http://localhost:3000 | 6 Screens

Workflow Overview

This document covers the complete Create Customer (CustomerForm.jsx) and Create Order (CreateOrderModal, StaffSearchDropdown.jsx, ClothSelectionCart.jsx) workflows in Washdoor POS—from registering a new customer with B2B/preference metadata to selecting staff/pickup masters, adding garments to the cart, and saving the order.

01 Create Customer - Basic Registration Form

Component: CustomerForm.jsx (Create Mode)

Primary registration modal opened from + Register Customer / + Add Customer. Captures essential customer identity, mobile, and primary pickup address.

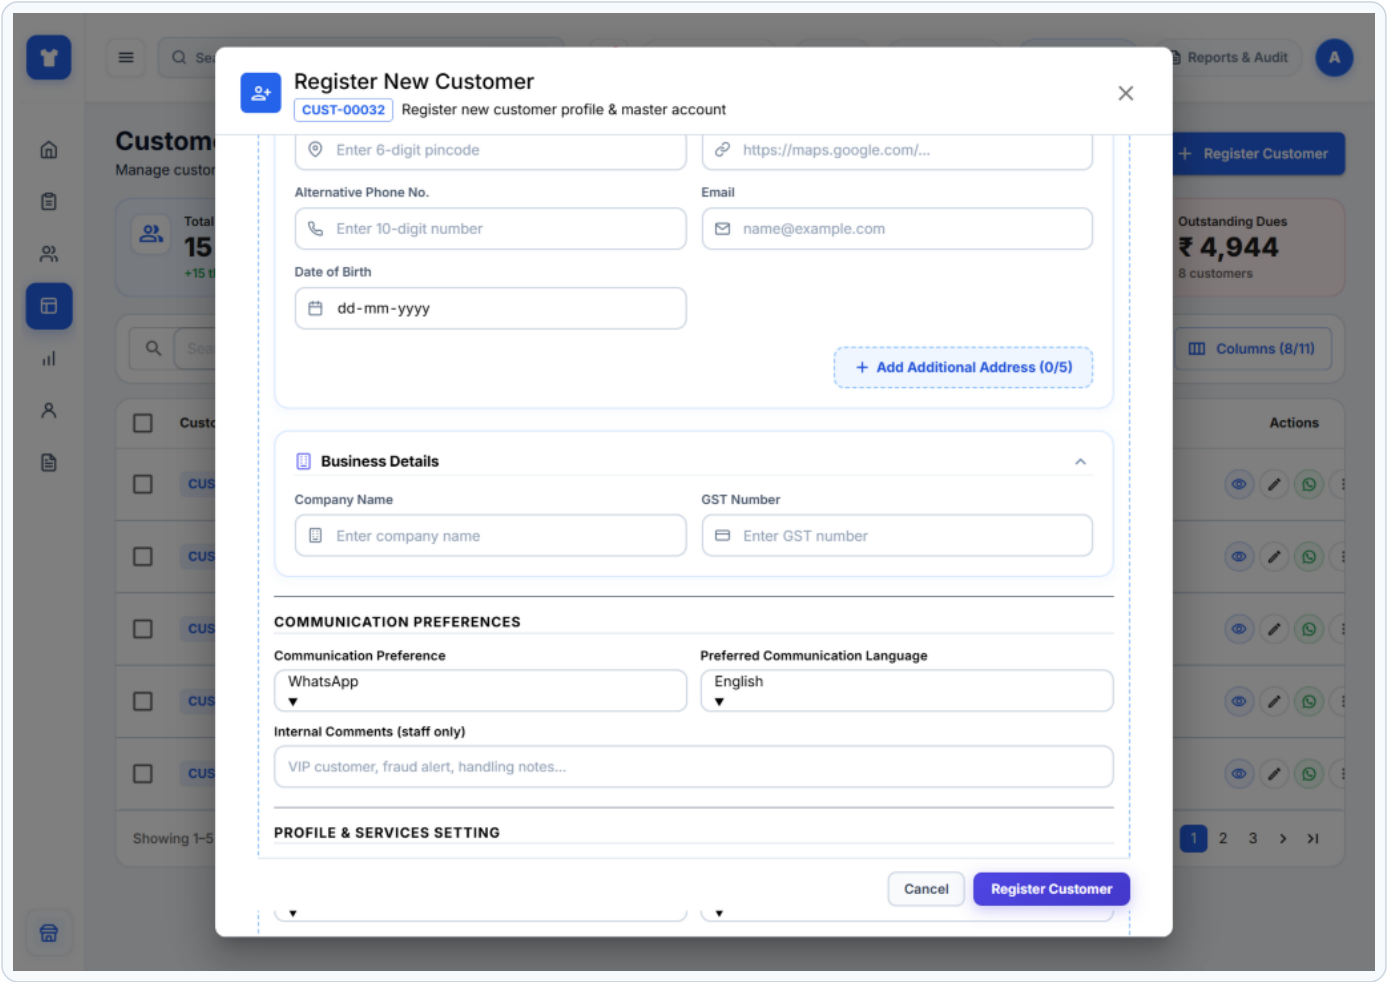

Key UI Elements, Fields & Actions

- Header & ID: Register New Customer modal with auto-generated ID badge (e.g. CUST-00043).
- Required Fields: Full Name * and +91 Mobile Number * with normalization and validation.
- Address & Flags: Primary Address with Home / Office / Other tag toggles and Tax Exemption checkbox.
- Footer Actions: Cancel and Save Customer (protected by isSubmitting / isSaving loading guard).

Create Customer - Expanded Additional Details

Component: CustomerForm.jsx (Additional Details Accordion)

Optional extended profile fields inside the registration modal for structured address, B2B/GST billing, communication preferences, and staff notes.

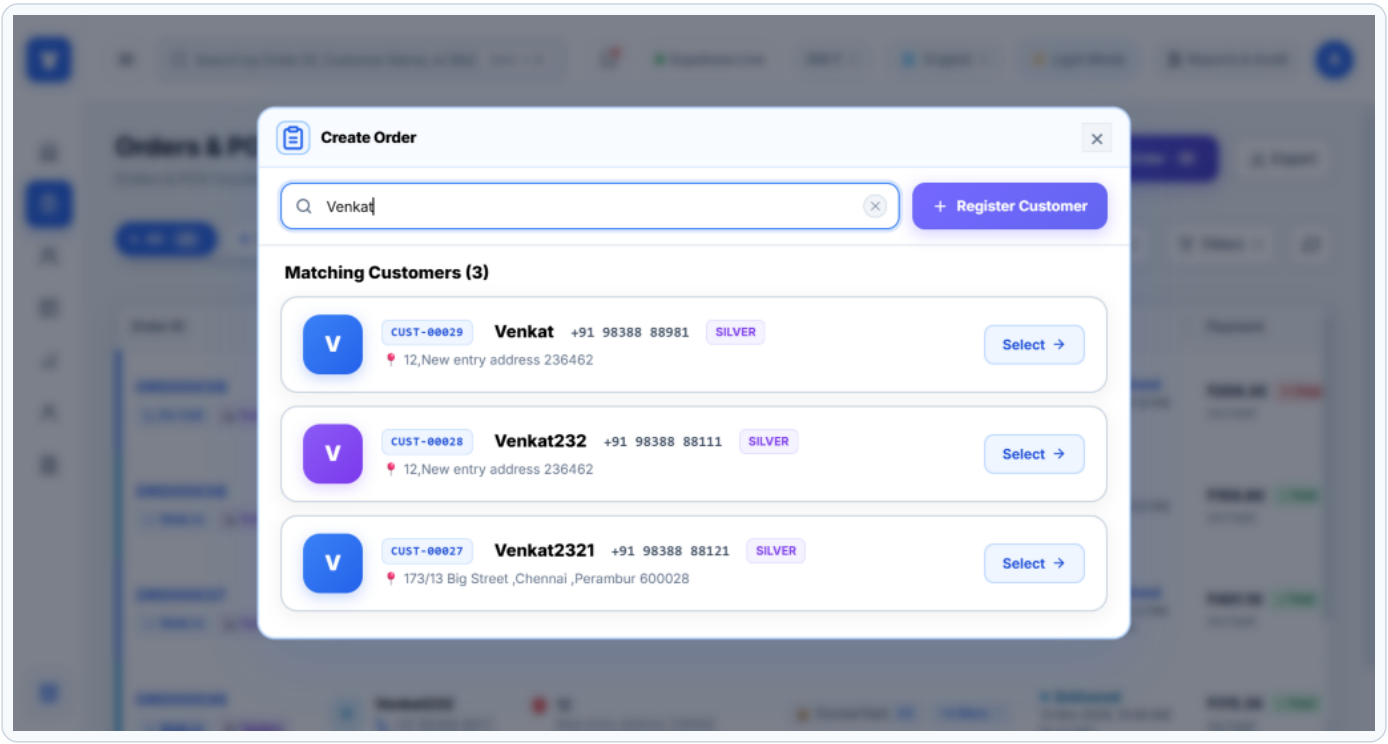

Key UI Elements, Fields & Actions

- Address Details: Address Line, City, Pincode, Map Link, Alternate Phone, Email, Date of Birth, and Add Additional Address (0/5).
- Business Details: Company Name and GST Number for B2B / GST-registered accounts.
- Communication Preferences: Preferred Channel (WhatsApp/SMS/Email) and Preferred Language.
- Profile & Services: Internal Comments, Customer Classification (Regular/VIP/Corporate), Status (Active/Inactive), and Area Service Zone.

03 Create Order - Customer Lookup & Staff/Pickup Fields

Component: CreateOrderModal / CustomerForm.jsx (Order Mode)

Top section of the Create Order modal combining customer lookup, live financial summary, intake method, priority flag, and staff/driver assignment.

Key UI Elements, Fields & Actions

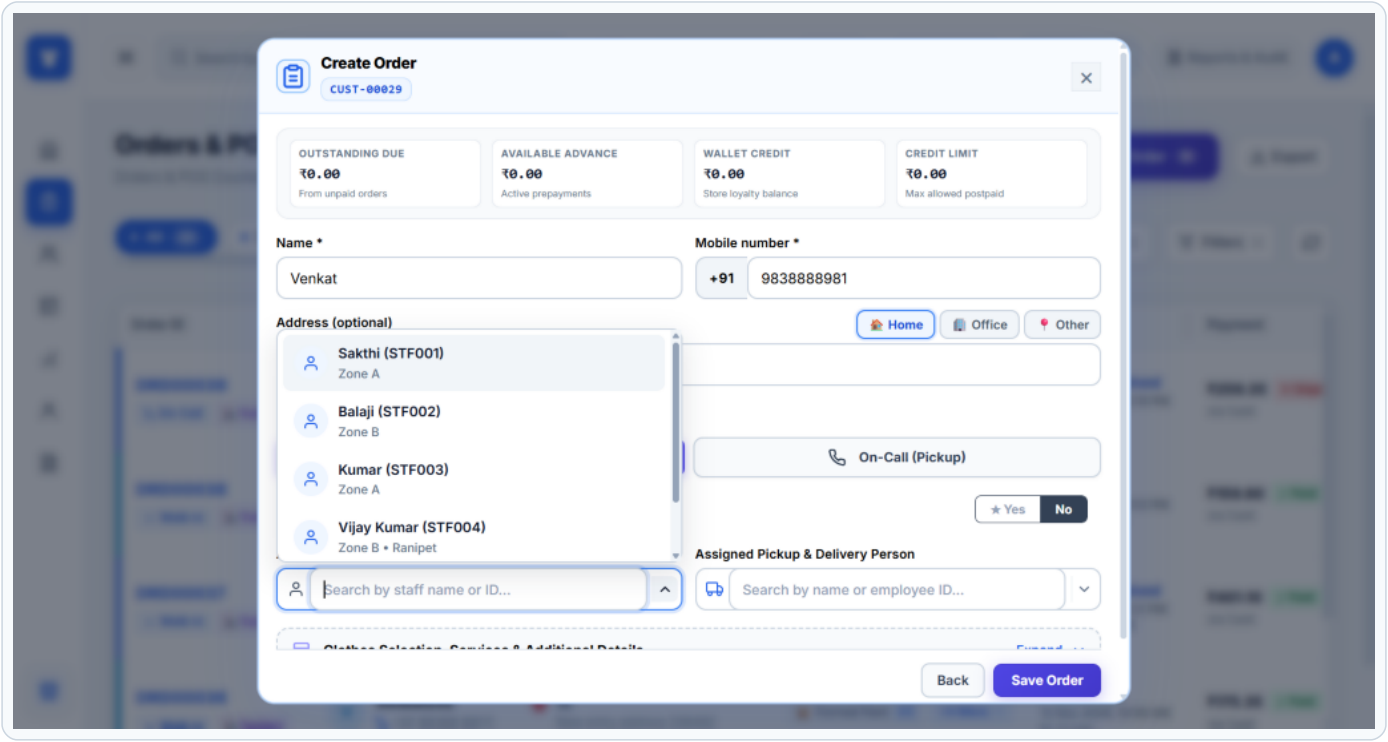

- Customer Financial Summary: Live Outstanding Due, Available Advance, Wallet Credit, and Credit Limit cards.
- Populated Customer Details: Auto-fills Name, +91 Mobile, Address, Address Tags, and Tax Exemption on customer selection.
- Order Intake & Priority: Walk-In (Store Drop) vs On-Call (Pickup), plus Priority Status (Yes / No).
- Staff & Dispatch: Searchable Attend Staff Name and Assigned Pickup & Delivery Person comboboxes.

04

Create Order - Attend Staff Dropdown Open

Component: StaffSearchDropdown.jsx (Portal Menu)

Portal-rendered searchable dropdown for selecting the counter attend staff (or pickup/delivery person) backed by Supabase master tables.

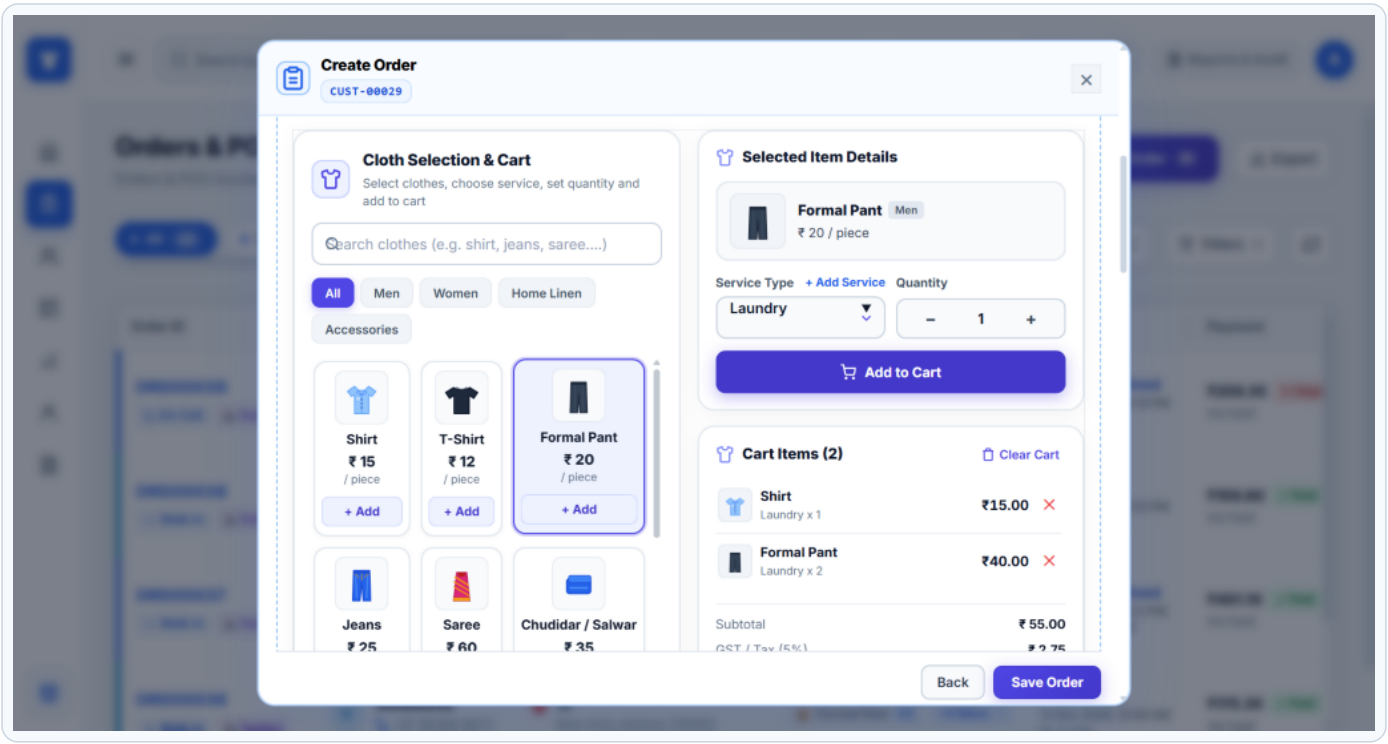

Key UI Elements, Fields & Actions

- Searchable by Staff Name or unique Staff ID (e.g. STF001, STF002, STF003) with zone metadata.
- Portaled to document.body (zIndex: 9999) with automatic upward/downward placement so it never clips inside modals.
- Stores both attend_staff_id and attend_staff_name on the order record.

05 Create Order - Garment Catalog & Service Cart

Component: ClothSelectionCart.jsx

Interactive garment picker and service cart for adding clothing items, choosing service types, adjusting quantities, and reviewing running totals.

Key UI Elements, Fields & Actions

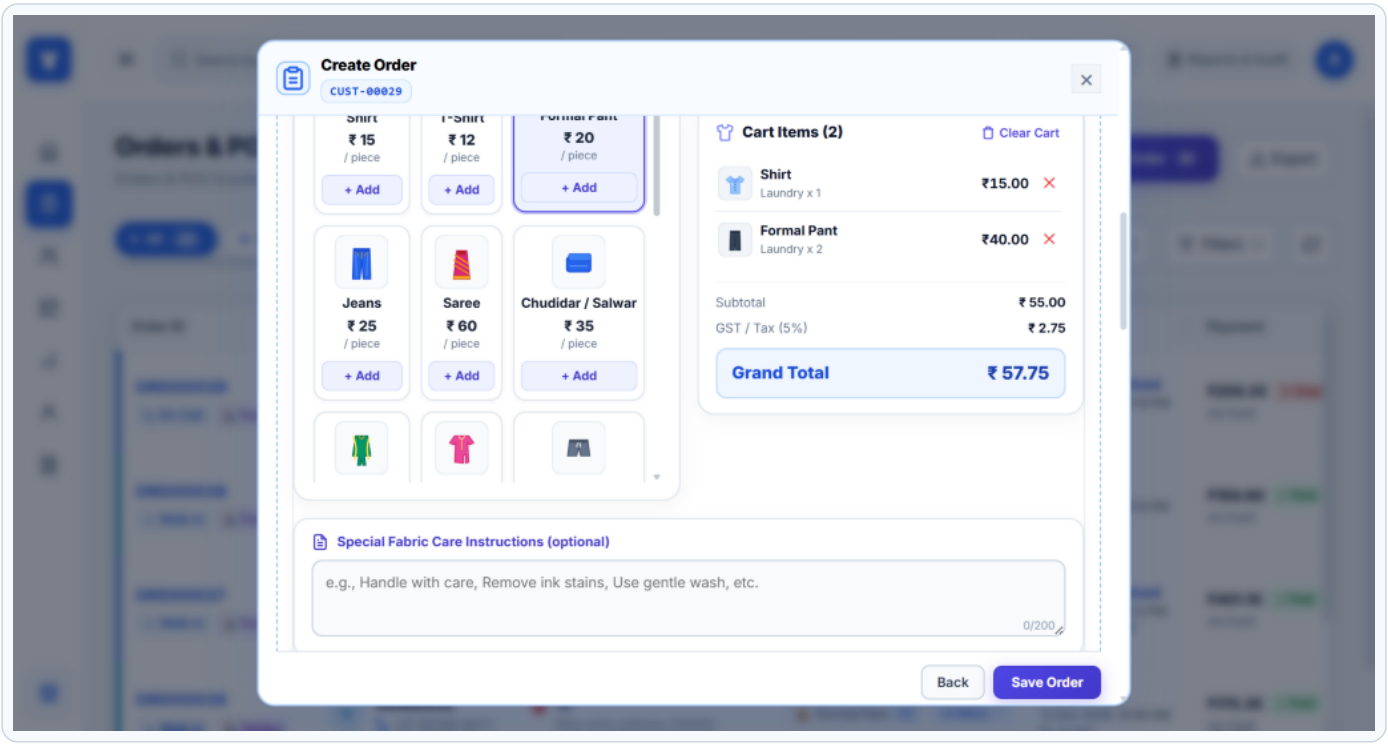

- Garment Catalog Grid: Category filter tabs (All, Men, Women, Home Linen, Accessories) and instant search.
- Selected Item Controls: Service Type selector (Laundry, Dry Clean, Steam Press, etc.), quantity stepper, and + Add to Cart.
- Live Cart Summary: Displays itemized garment lines, per-item service labels, running Subtotal, and GST / Tax 5%.

06

Create Order - Totals, Care Instructions & Save Order

Component: CreateOrderModal (Summary & Submit)

Final review section of the Create Order workflow showing itemized cart totals, GST calculation, fabric care instructions, and Save Order action.

Key UI Elements, Fields & Actions

- Financial Breakdown: Subtotal, GST / Tax 5%, and prominent Grand Total banner.
- Special Fabric Care Instructions: Optional 200-character textarea with helper guide.
- Navigation & Submit: Back button to return/adjust and Save Order button to persist customer + order to Supabase.
