WASHDOOR POS

Customer Module — Complete Screen Documentation

Customers & Customer Reference (360°) | http://localhost:3000 | 12 Screens

Module Overview

The Washdoor Customer Module spans two integrated views: Customer Master Records (CustomerManagement.jsx) for direct CRUD, registration, and inline inspection, and Customer Reference (CustomerMUI.jsx, Customer360Panel.jsx, CustomerDetailDrawer.jsx) for KPI segmentation, Grid/Cards views, full 360-degree order/payment/notes/membership visibility, and 1-click navigation into Orders & POS.

01

Customer Master Records - List View

Component: CustomerManagement.jsx

Primary Customer CRUD directory for searching, viewing, editing, messaging, and managing all registered customers with server-backed Supabase synchronization.

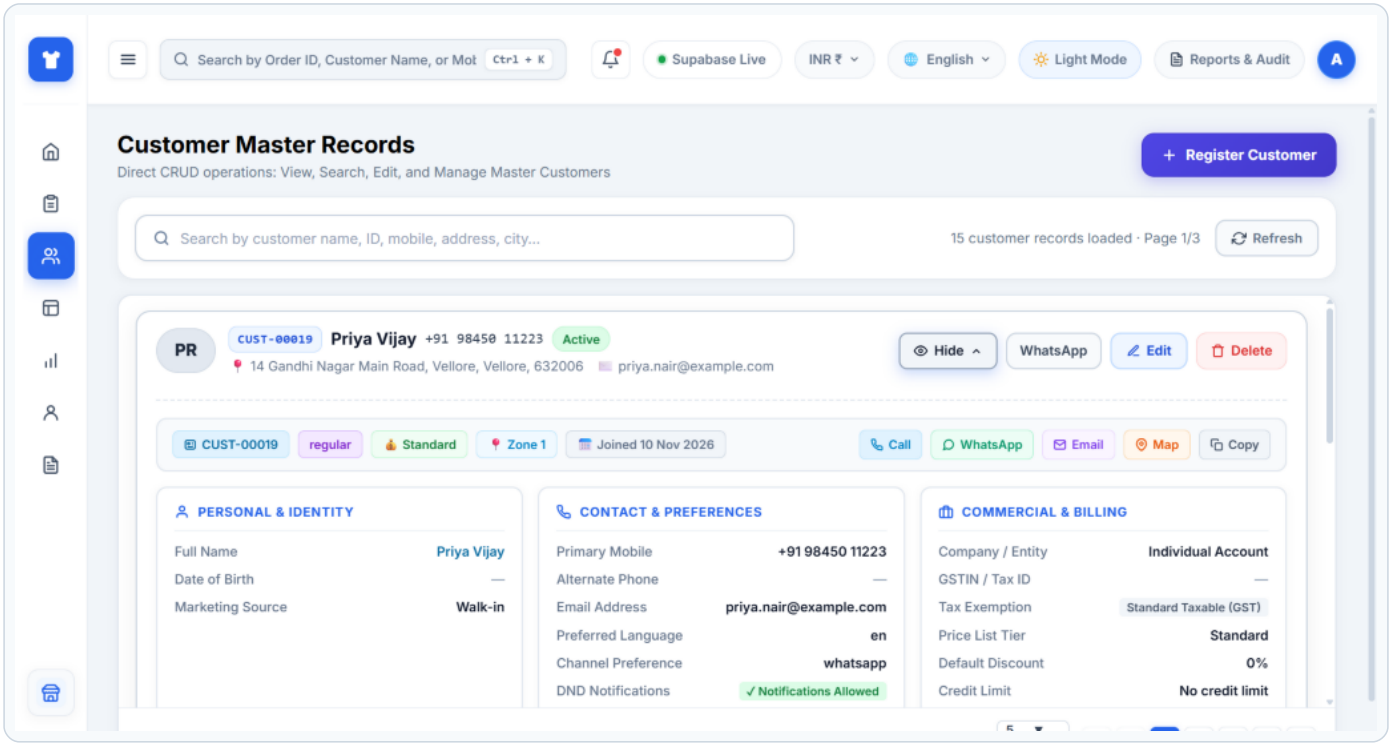

Key UI Elements, Fields & Actions

- Toolbar: Search by customer name, ID, mobile, address, or city; record counter (Page X/Y); Refresh button; and + Register Customer CTA.
- Customer Row Cards: Displays initials avatar, Customer ID badge, full name, phone, status chip, address, email, and GST/company metadata.
- Row Actions: View (inline expand), WhatsApp quick chat link, Edit modal trigger, Delete confirmation trigger, and pagination footer.

Customer Master - Expanded Profile View

Component: CustomerManagement.jsx (Inline Expand)

Inline expandable profile card showing full personal, contact, commercial, and billing details directly inside the Customer Master Records list.

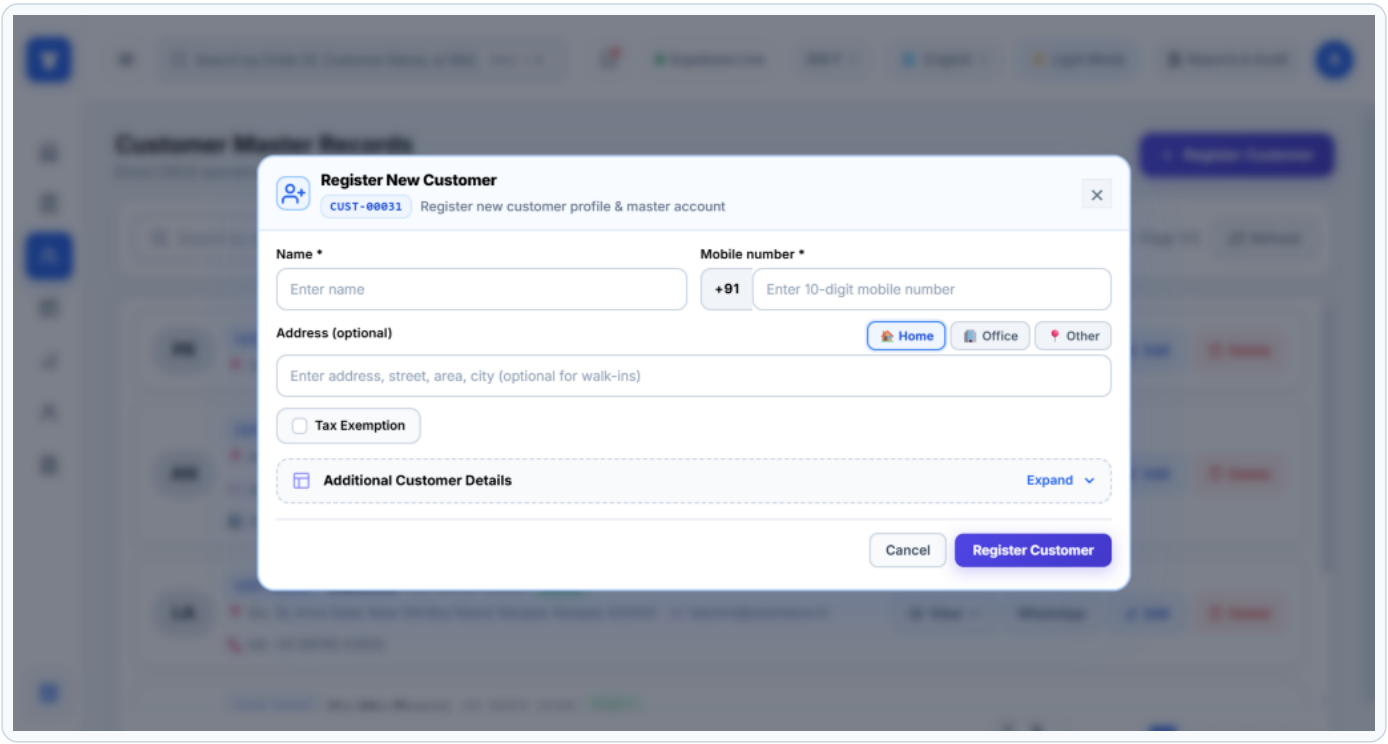

Key UI Elements, Fields & Actions

- Badge Bar & Quick Actions: Customer ID, classification tag, Price List tier, Service Zone, Join Date, plus Call, WhatsApp, Email, Map, and Copy buttons.
- Personal & Identity: Full Name, Date of Birth, and Marketing Source.
- Contact & Preferences: Primary Mobile, Alternate Phone, Email, Preferred Language, Channel Preference, and DND Notification status.
- Commercial & Billing: Company/Entity, GSTIN/Tax ID, Tax Exemption status, Price List Tier, Default Discount, and Credit Limit.

03 Register New Customer Modal

Component: CustomerForm.jsx (Create Mode)

Modal form for registering a new customer with auto-generated Customer ID, mobile validation, address tagging, and optional extended profile details.

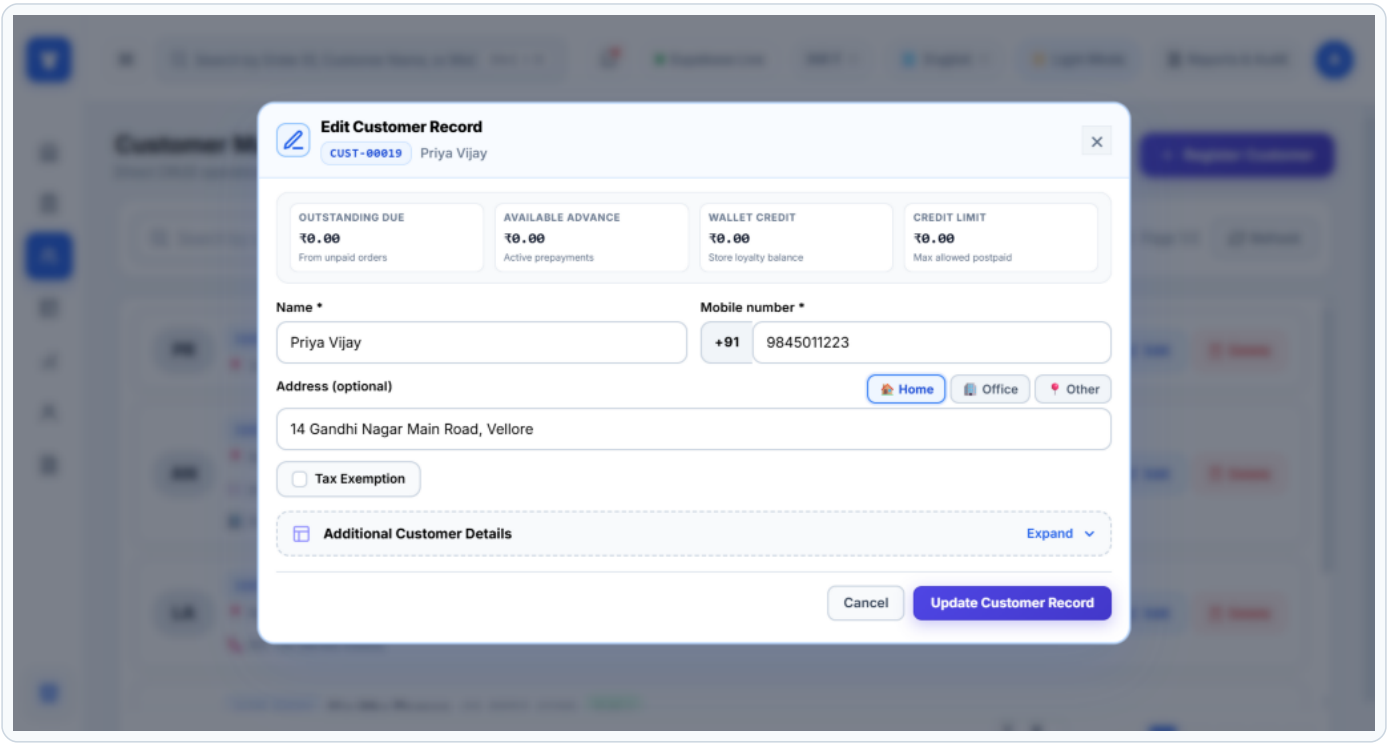

Key UI Elements, Fields & Actions

- Auto-generated Customer ID pill (e.g. CUST-00031) displayed in modal header.
- Required Fields: Name * and +91 Mobile number * with normalization and duplicate protection.
- Address & Tags: Address input with Home, Office, and Other address type chips, Tax Exemption checkbox, and expandable Additional Customer Details.
- Loading Guard: isSubmitting / isSaving prevents duplicate submissions during Supabase createCustomer.

04 Edit Customer Record Modal

Component: CustomerForm.jsx (Edit Mode)

Full customer edit dialog pre-populated with Supabase master data alongside live financial summary KPIs (Due, Advance, Wallet Credit, Credit Limit).

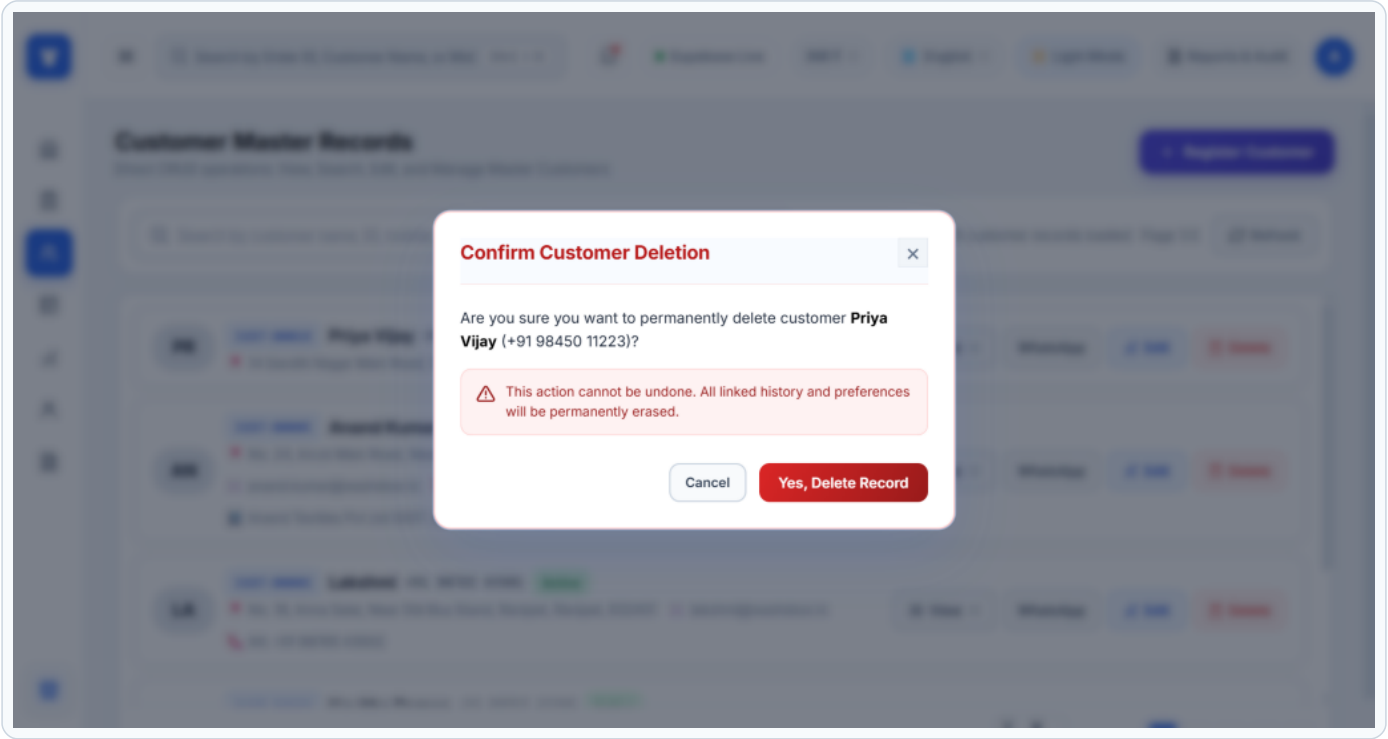

Key UI Elements, Fields & Actions

- Live Financial Summary Cards: Outstanding Due, Available Advance, Wallet Credit, and Credit Limit.
- Pre-populated Editable Fields: Name, Mobile, Address + Tag, Tax Exemption, and Additional Customer Details (B2B/GST, Preferences, Notes).
- Aligned ID Resolution: Resolves customerId || customer_id || customer_code cleanly on Update Customer Record.

05 Confirm Customer Deletion Modal

Component: CustomerManagement.jsx (Delete Dialog)

Safety confirmation modal displayed before permanently deleting a customer record from Supabase.

Key UI Elements, Fields & Actions

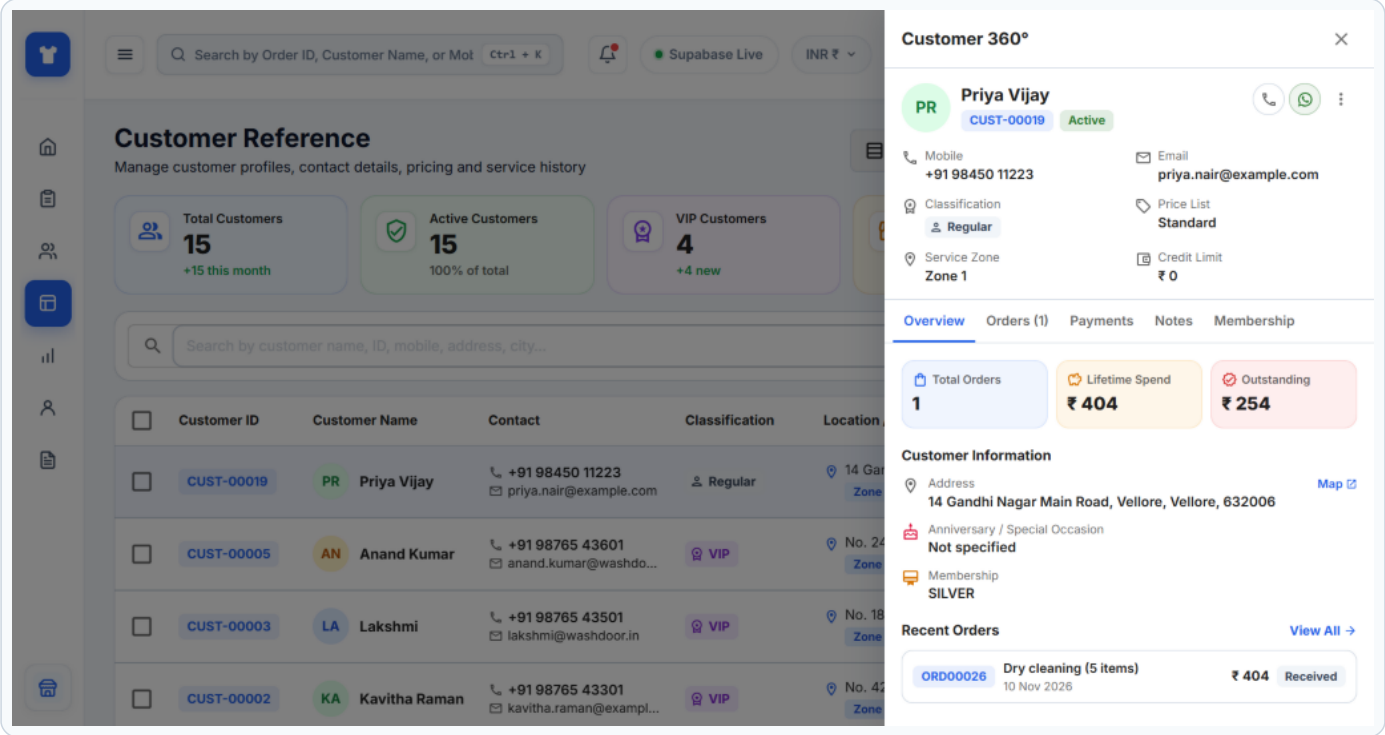

- Displays customer name and mobile number in the confirmation prompt.
- Includes high-visibility warning banner explaining permanent deletion of linked history and preferences.
- Provides Cancel and destructive Yes, Delete Record actions with ID fallback resolution.

06

Customer Reference - Grid View & 360° Overview

Component: CustomerMUI.jsx + Customer360Panel.jsx

Split-pane CRM workspace combining 5 live KPI summary cards, filterable MUI DataGrid, and the interactive Customer 360° Overview panel.

Key UI Elements, Fields & Actions

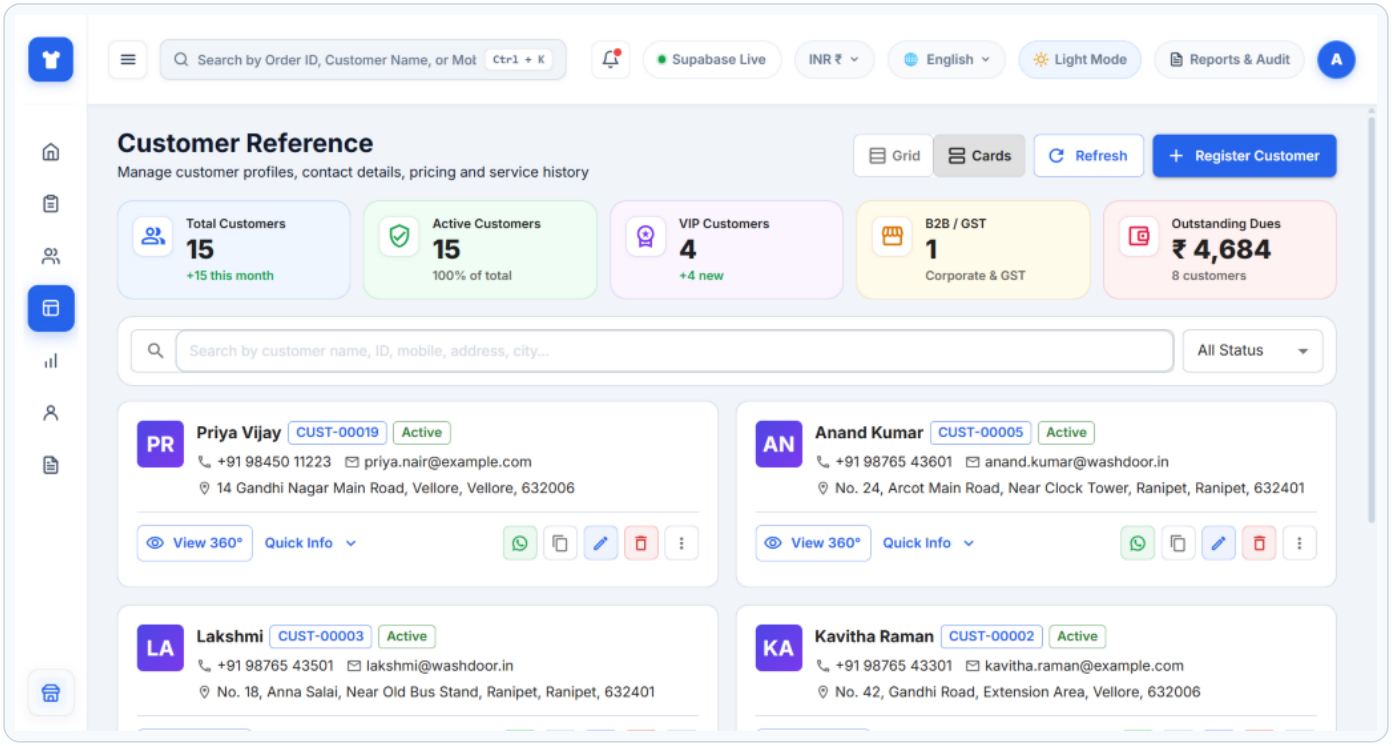

- 5 Interactive KPI Filters: Total Customers, Active Customers, VIP Customers, B2B / GST, and Outstanding Dues.
- Toolbar Controls: Search bar, Status filter (All Status / Active Only / Inactive Only), Grid/Cards toggle, Refresh, and + Add Customer.
- Customer 360° Overview: Order/Spend/Outstanding KPIs, Address + Google Maps link, Special Occasion, Membership tier, and clickable Recent Orders.
- Cross-Module Action: More ("î) menu includes Full Profile Details and New Order in

07

Customer Reference - Cards Layout View

Component: CustomerMUI.jsx (Cards Mode)

Responsive multi-column card layout alternative to the DataGrid, with unified actions, expandable Quick Info, and clamped pagination.

Key UI Elements, Fields & Actions

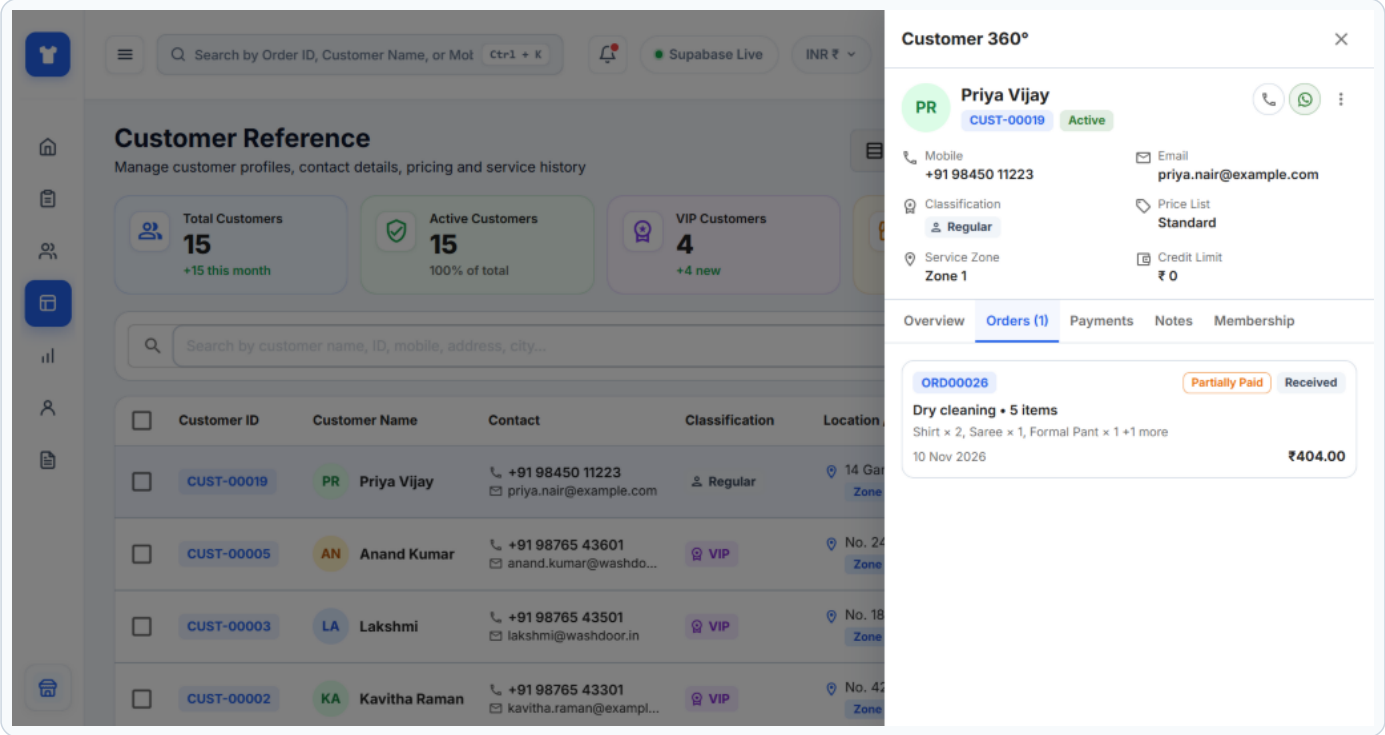

- Unified Card Actions: View 360°, Quick Info accordion, WhatsApp Chat, Copy, Edit
- Pagination Footer: Showing X-Y of N customers, Page X of Y, Show 6 / 12 / 24 / 50 / 100 selector, and First/Prev/Next/Last buttons.

08

Customer 360° - Orders History Tab

Component: Customer360Panel.jsx (Orders Tab)

Complete chronological order history for the selected customer with payment badges, fulfillment status, garment breakdown, and POS jump-to-order.

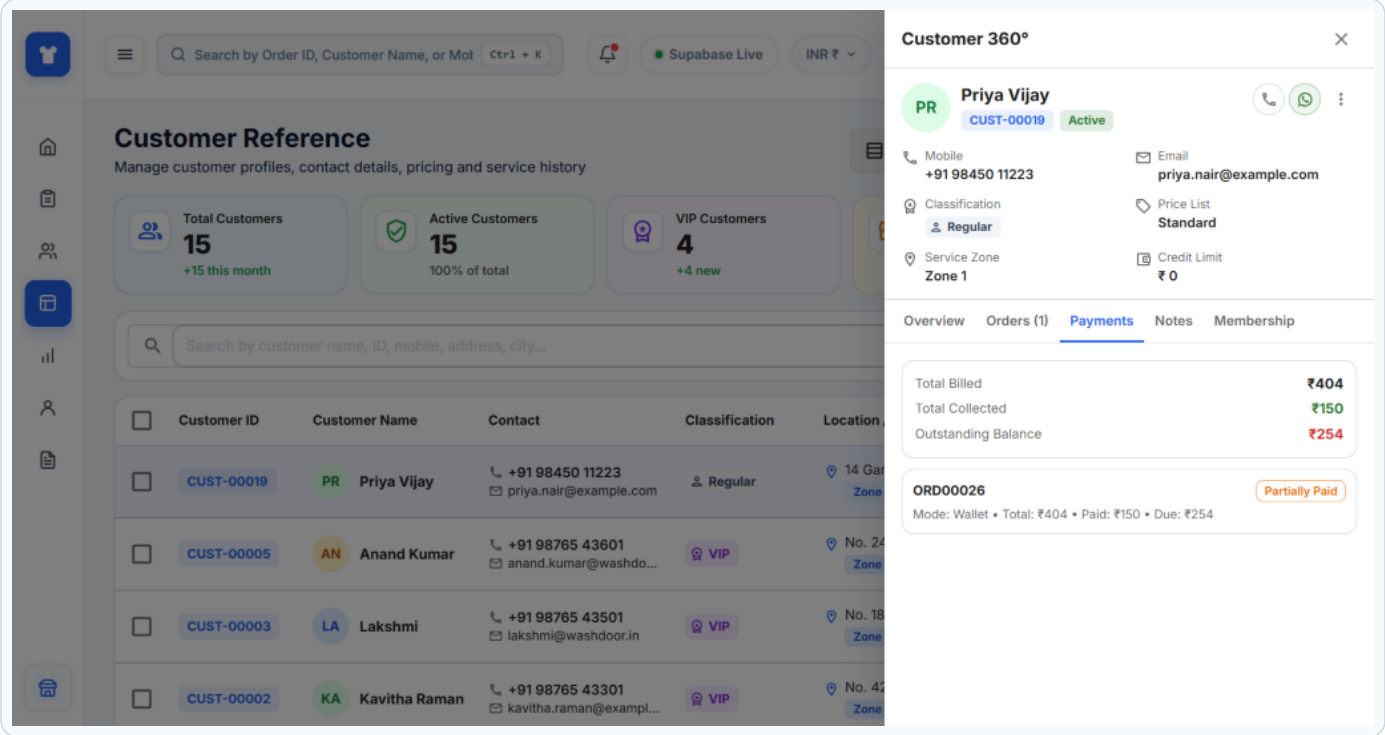

Key UI Elements, Fields & Actions

- Displays order number chip, payment badge (Paid / Partially Paid), and fulfillment status pill.
- Shows service category, total garment piece count, item preview, order date, and total amount.
- Clicking any order card navigates directly to Orders & POS filtered to that order number.

Customer 360° - Payments & Ledger Tab

Component: Customer360Panel.jsx (Payments Tab)

Customer-level financial reconciliation tab summarizing Total Billed, Total Collected, Outstanding Balance, and per-order payment breakdowns.

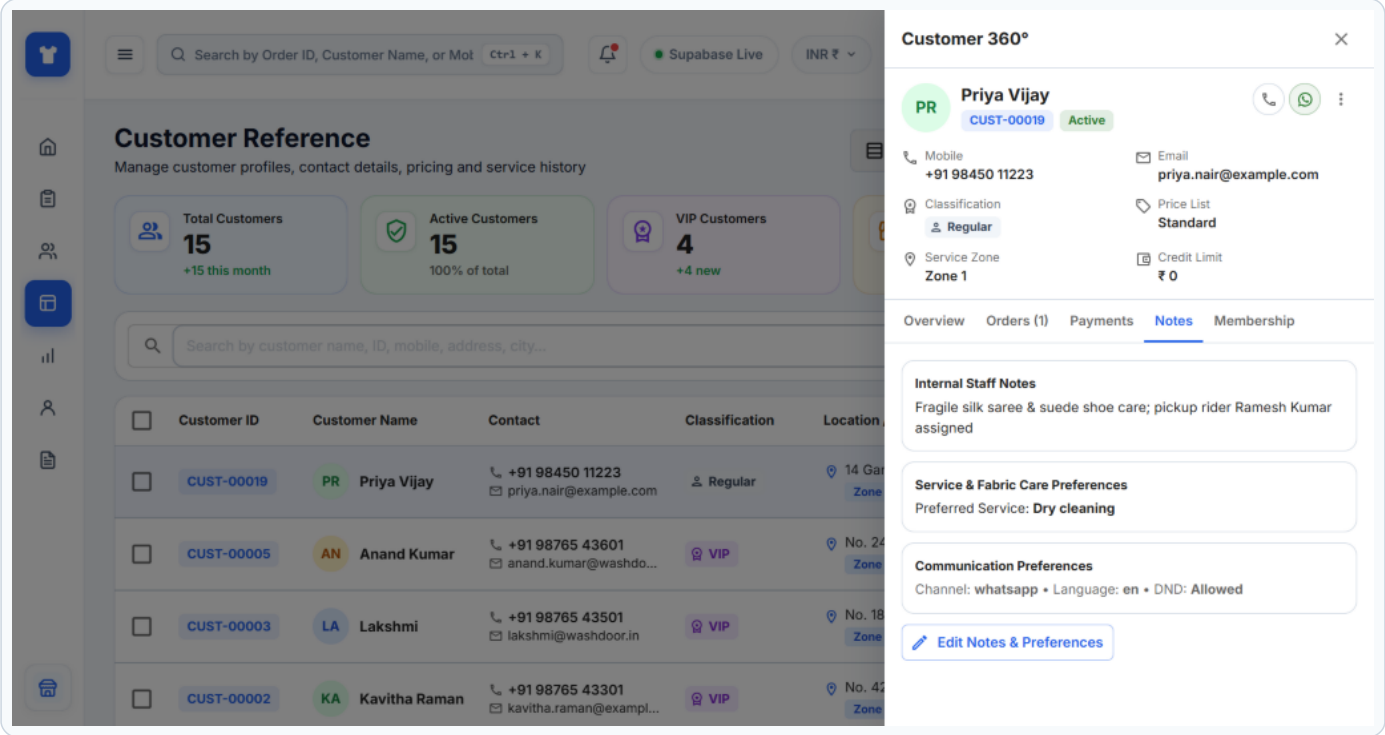

Key UI Elements, Fields & Actions

- Top Summary Strip: Total Billed, Total Collected (green), and Outstanding Balance (red).
- Per-Order Payment Cards: Order number, payment status badge, payment mode (Cash/UPI/Wallet), Total, Paid, and Due amounts.

10 Customer 360° - Notes & Preferences Tab

Component: Customer360Panel.jsx (Notes / Complaints Tab)

Dedicated tab for internal staff handling notes, fabric care preferences, communication channel settings, and quick editing.

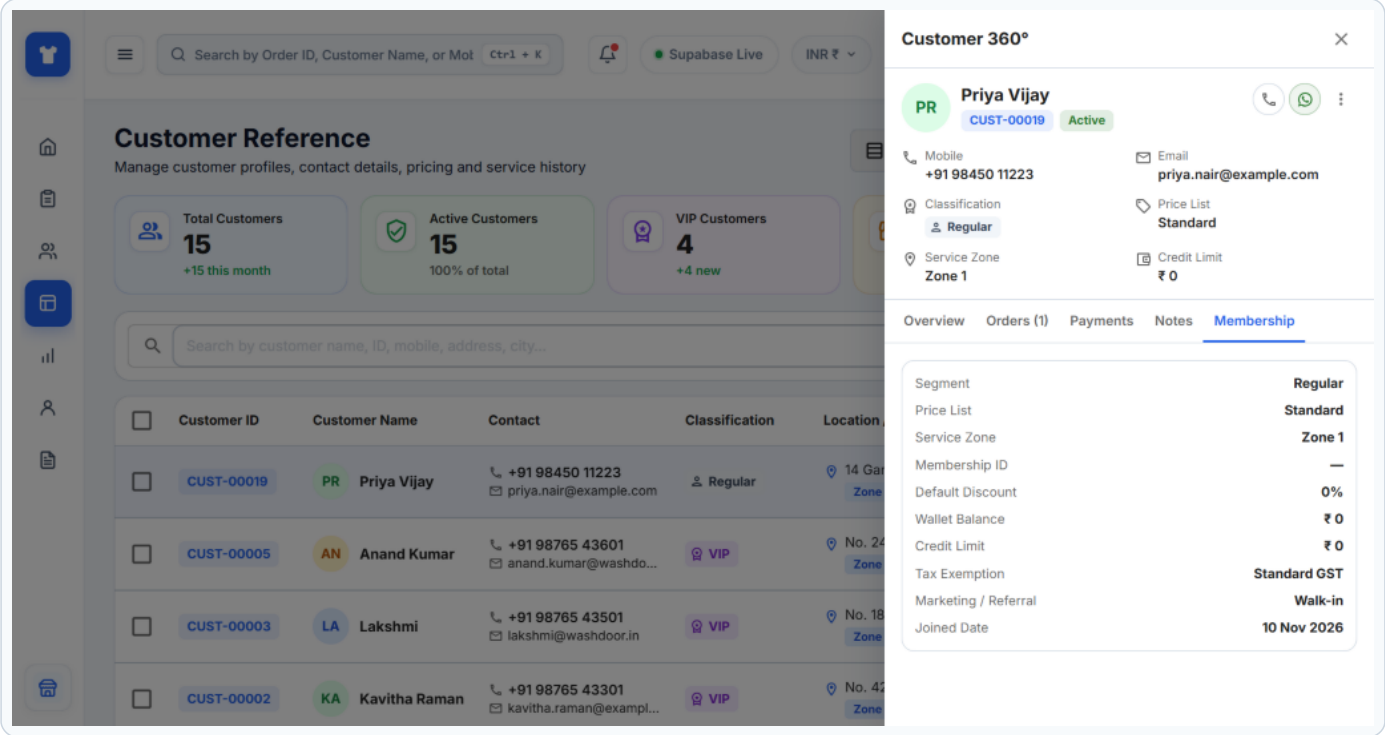

Key UI Elements, Fields & Actions

- Internal Staff Notes: Surfaces special care/rider notes cleanly without raw system tags.
- Service & Fabric Care Preferences: Displays preferred service type and special handling instructions.
- Communication Preferences & Edit Action: Shows Channel, Language, DND status, plus Edit Notes & Preferences button.

11 Customer 360° - Membership & Commercial Tab

Component: Customer360Panel.jsx (Membership Tab)

Structured commercial, loyalty, and billing metadata view for the selected customer.

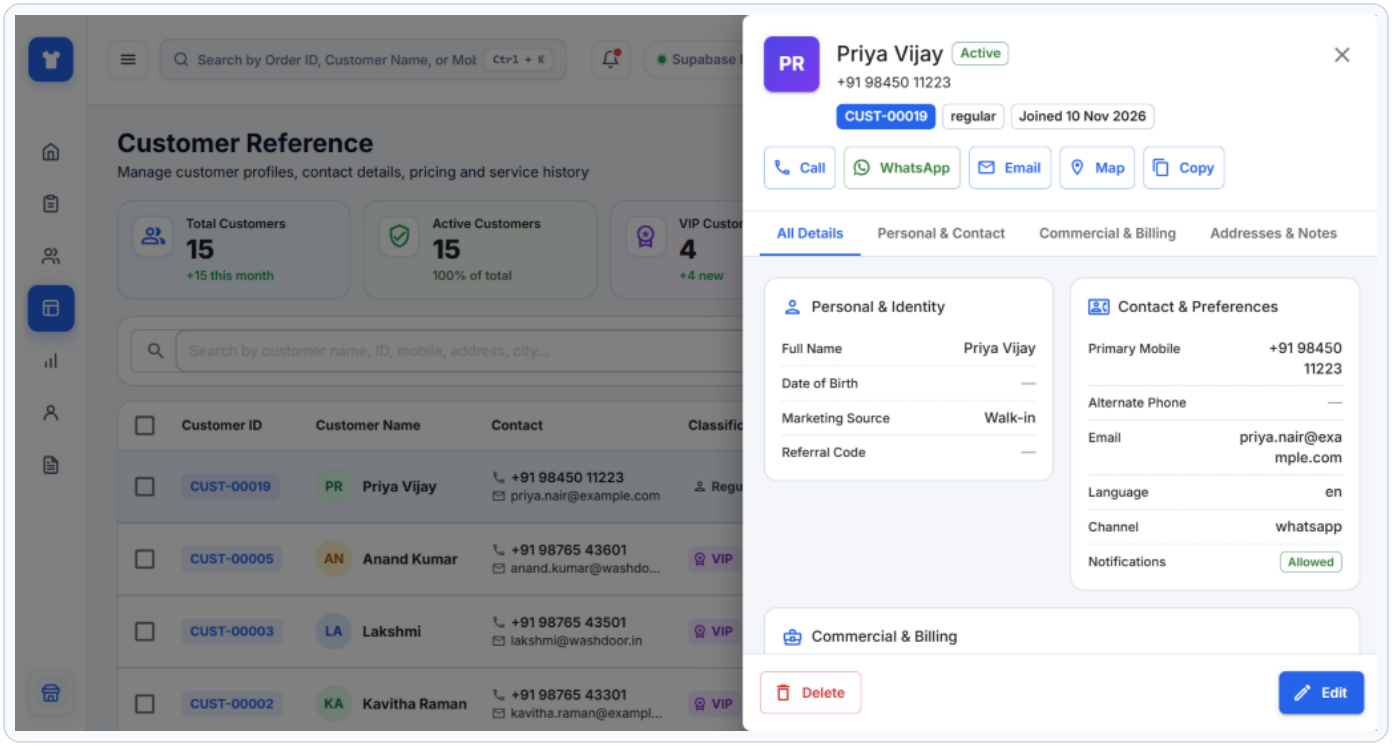

Key UI Elements, Fields & Actions

- Displays Segment (Regular/VIP/Corporate), Price List, Service Zone, Membership ID, and Default Discount.
- Shows Wallet Balance, Credit Limit, Tax Exemption status, Marketing/Referral source, and Joined Date.

12 Full Profile Details Drawer

Component: CustomerDetailDrawer.jsx

Comprehensive slide-over profile drawer accessible from Customer 360° (More -> Full Profile Details) or row View actions.

Key UI Elements, Fields & Actions

- Header & Quick Action Bar: Avatar, Customer ID, status chip, tier, join date, and Call, WhatsApp, Email, Map, Copy buttons.
- Section Filter Tabs: All Details, Personal & Contact, Commercial & Billing, and Addresses & Notes (resets cleanly when customer changes).
- Footer Actions: Delete (red outline) and Edit (primary) buttons.
